

# Emergency First Aid at Work For Irish Audiences

## **Course Description**

What is Emergency First Aid? Well it's exactly that, the first aid to be offered if an incident occurs. Not many of us are confronted with scenes of blood and gore in our everyday lives – so usually first aid could be as simple as sticking a plaster on a small cut.

But what if you did find yourself confronted with a more serious situation. This Emergency aid course will highlight some of the most common situations that you might come across and the actions that you can take to help.

In the most serious situations a first aider's role will be to assess the scene so that accurate information can be passed to Emergency services and then to act appropriately to try and increase the patients odds of survival.

## **Target Audience**

Our Emergency First Aid at Work - Online Annual Refresher E-learning course is aimed at all employees that have attended one-day Emergency First Aid at Work practical courses. This Emergency First Aid at Work - Online Annual Refresher Course ensures that their first aid skills and knowledge are refreshed and up to date before re-certification every three years.

## **Advantages**

In the most serious situations a first aider's role will be to assess the scene so that accurate information can be passed to Emergency services and then to act appropriately to try and increase the patients odds of survival.

This Emergency First Aid at Work - Online Annual Refresher course is approved by leading industry body IIRSM

Online training is flexible, efficient and cost effective meaning the candidate can progress through the modules at their own pace and in their own time, so they can fit the training in around their work and personal life.
