

# **IOSH Approved Working Safely e-learning with VideoTile Learning**

## **Course Description**

This course covers all aspects of Working Safely.

It begins by introducing workplace safety and its importance, highlighting its seriousness with some hard-hitting health and safety statistics.

It then move on to explore workers' rights, the role of worker and safety representatives and some key health and safety terminology.

After that, the course looks at injuries and illnesses and explores the importance of recognising and assessing potential hazards and their associated risk.

The next section starts by explaining what it meant by the term 'reasonably practicable', before looking at the areas of incident reporting and organisational learning.

The course then moves on to explore common workplace hazards and their controls.

The third part of the course looks at the responsibilities an organisation has with respect to health and safety, exploring good practice, training, and how health and safety can be improved.

It then looks at hazardous attitudes that can play a significant role in workplace accidents, explores key documented management systems which aim to ensure work is done safely and efficiently.

Following this, the course dives into the topics of performance checking, active monitoring, safety committees, and inspections and investigations, then finishes by looking at the role of accident investigation, health surveillance, health monitoring, and reviews in ensuring the health and safety of everyone at work.

Upon completion of the course you will receive a certificate from IOSH.

## **Certification**

Successful candidates receive an IOSH-approved certificate.

## **Advantages**

Online training is flexible, efficient and cost effective meaning the candidate can progress through the modules at their own pace and in their own time, so they can fit the training around their work and personal life

IOSH course registration fee and certificate is fully included so there are no hidden costs

Successful candidates receive an official IOSH Approved Managing Safely with VideoTile Learning Digital Certificate issued by IOSH.

## Modules

Course	Module Number	Module Name	Pass % Required
IOSH Approved Working Safely e-learning with VideoTile Learning	1	Introducing Hazard and Risk	70
IOSH Approved Working Safely e-learning with VideoTile Learning	2	Identifying Common Hazards	70
IOSH Approved Working Safely e-learning with VideoTile Learning	3	Improving Safety Performance	70

### Recommended System Requirements

- Browser: Up to date web browser
- Video: Up to date video drivers
- Memory: 1Gb+ RAM
- Download Speed: Broadband (3Mb+)

**Duration:** 3 hours 30 minutes (*Note: This is based on the amount of video content shown and is rounded off. It does not account in any way for loading time or thinking time on the questions*).
