Optimising and Refining AI Prompts

Course Description

This micro course will explain why refining prompts is important and look at several techniques that you can use to optimise your AI prompts. It will look at how using examples in your prompts helps the AI understand the format and type of response you are looking for. It explains how to use a prompt testing platform to help you identify which prompts work best for your requirements and lastly, it will briefly look at practical examples to help you understand the best way to obtain the best results from the AI.

Learning Objectives

By the end of this course, you will be able to:

- Understand why refining prompts is important.
- Use different techniques that will help to optimise your AI prompts
- Use a prompt testing platform

Target Audience

This E-Learning course is aimed at beginners and professionals from all industries who are curious about AI.

Advantages

Online training is flexible, efficient and cost effective meaning the candidate can progress through the modules at their own pace and in their own time, so they can fit the training around their work and personal life.

Modules

Course	Module Number	Module Name	Pass % Required
Optimising and Refining AI Prompts	1	Optimising and Refining AI Prompts	70

Recommended System Requirements

• Browser: Up to date web browser
• Video: Up to date video drivers
• Memory: 1Gb+ RAM
• Download Speed: Broadband (3Mb+)

Duration: 10 minutes (*Note: This is based on the amount of video content shown and is rounded off. It does not account in any way for loading time or thinking time on the questions*).
